Now if the vegetables are grown organically so they only need a good washing before being eaten, how does it get any better? Susan Muenzer would like to share some of the pleasures of growing your own veggies with you, going over 'how to' advice, seed and plant sources, and planning. Now is a good time to start preparing for a fall crop or for next spring. Susan is a landscape architect with Nilsson's Full Service Landscape Company, Waterville Ohio. Her garden interests were piqued as a child visiting her grandparents and a beautiful iris garden in Elmore. Reservations required. Fee is \$12 per person. Plants will be for sale.
